

❑ Increasing regional relevance and usability of climate science, data, models, and tools for **water suppliers and resources managers**

❑ Support decision-making for **water resource management, planning and supply operations** in Florida

FWCA WORKSHOP

September 18, 2015

Tampa Bay Water, Clearwater Florida

Stakeholder-Scientist Learning Network

What is a stakeholder ?

What is a scientist ?

What is stakeholder based research?

What is stakeholder-scientist collaboration ?

Workshop Objectives

1. Stakeholder-scientist collaboration - Share current research, tools and benefits
2. Learn about stakeholder-based climate research programs in South Florida and explore synergies
3. Discuss Proposal Opportunities - Linking Science and the FWCA
4. Sustain the FWCA network - an environment for shared information, learning and networking.
