

Overall Working Group Goal: Networking to enhance the usability of climate change and variability data and tools in the planning and operations of Florida's public water supply utilities.

Workshop Objectives

1. Share and discuss relevant research and programs focused on FloridaWCA participant interests.
2. Determine FloridaWCA future ways of working together and strategic efforts.
 - a. Explore “governance structures,” why they matter, and what could work for FloridaWCA.
 - b. Determine specific next steps, activities, speakers, responsibilities for future efforts for FloridaWCA.
